CAMARA IS IN STRAITS

May Be Intercepted By Watson On Return to Cadiz.

THAT PORT WILL BE BLOCKADED IF HE REACHES IT.

Washington, June 29—Special—The talk of European protest against the bombardment of Spanish forts by the American fleet is regarded here as pure bombast. No such protest can be made without disregarding all precedents. It is taken for granted in London that Cadiz will be shelled in case Camara's fleet again takes refuge there, and the proceeding would be fully justifiable under the law of nations. Great Britain will certainly approve the step. She made the precedent by shelling Washington in 1814, and has defended the plan ever since. It is not believed that any European nation will deny the United States the right to fight its battles in a manner heretofore pursued by every power in its wars with its neighbors.

Decisive Battle Expected

Washington, June 29—Special—Shafter has now 30,000 men under his command before the gates of Santiago. Of these nearly one-half are Cubans, and all are armed with the best of weapons. The impending battle will probably settle the conflict if victory is won by the American arms. The defeat of the Spaniards will doubtless be a crushing one, and it is believed that Spain will sue for peace within a couple of weeks.

Gorged Themselves.

Baiguire, June 29—Special—Three starving insurgents who reached the American lines after having been without food for three days have died from the effects of eating too much food before their stomachs were in condition to receive it. The sight of food rendered them insane.

Camara In Danger.

Washington, June 29—Special—The state department has information that Camara's fleet has practically abandoned its trip to the Philippines. The navy department has decided to rush Watson's squadron to Cadiz so that it may arrive before Camara can get back.

Sampson Is Sanguine.

Washington, June 29—Special—A long report has been received from Sampson regarding the movements of the fleet and troops since June 15. He reports everything favorable to the early capture of Santiago, and thinks the Cubans will be of great assistance.

Can Capture It by Assault.

Washington, June 29—Special—Shafter reports to the war department that he can carry Santiago by assault in forty-eight hours. He will not attempt the assault at once, however, because his guns are not in position.

Marching on Santiago.

Washington, June 29—Special—It is reported this afternoon that Shafter has informed the war department that Pando with 8,000 men are advancing on Santiago but are still fifty miles from the besieged city.

Shafter Congratulated.

Washington, June 29—Special—The president has sent a telegram to Shafter congratulating him and his men for their gallant action at La Quisna on Friday, when seventeen men were killed.

Looks Like Peace.

Madrid, June 29—Special—The cabinet has demanded of Blanco his plan of campaign and the prospects thereof. The belief gains ground that the peace party is prevailing.

Accident to the Dolphin.

Washington, June 29—Special—A report is in circulation that the cruiser Newark collided with the Dolphin at sea and that the Dolphin was badly injured.

Auxiliary Spanish Squadron.

Madrid, June 29—Special—The queen regent today authorized the formation of an auxiliary squadron of warships at Cadiz.

Charles Carlson Becomes Demented While Enroute for the South.

Charles Carlson, one of the late volunteers from Darlington, who was in Janesville with twenty-one companions a week ago last Saturday while on their way to Jacksonville, is now in jail at Darlington, a raving maniac. While on the way south from Chicago, the unfortunate man commenced to act queerly, and his companions at once suspected that he was mentally off. At Jefferson, Ind., he committed burglary and was arrested and released. Carlson has been ill for some time past, and it is thought that the excitement of going to war brought on the sudden attack.

The unfortunate man was badly cut in two places, and it required twenty-four stitches to close the wounds.

A SUNDAY SCHOOL PICNIC.

St. Paul's Lutheran Young People Enjoy Themselves Today.

Crystal Springs park was a merry place today, the occasion being the annual picnic given by St. Paul's Lutheran school. At 8:30 o'clock this morning, the members of the school, headed by the G. A. B. and drum corps, marched to the boat landing and boarded the steamer Columbia.

At the park nothing was found wanting that would add to the pleasure of those present, and games and other amusements were to be had on all sides. At the noon hour a German picnic dinner was served, which proved to be one of the events of the day. On the afternoon boats many visited the park, and the crowd was a large and good-natured one.

WAIT FOR BIG GUNS

When Siege Guns Arrive Shafter Will Attack Santiago.

EVERYTHING LOOKS FAVORABLE TO AMERICAN CAUSE.

Sibony, June 29—Special—On the very eve of the great fight which is to take place for the possession of Santiago, Sampson, Shafter, and Garcia, the commanders upon whom devolves the leadership of the attacking forces, express the utmost confidence in the result. The army, under command of the last two, has driven the Spaniards back until they now rest in trenches about the city in which they are to make their last stand. Before the entrance to the harbor lie Sampson's warships, making the escape of Cervera impossible. While confident of victory Shafter says the Spaniards will fight desperately. He and Garcia are campaigning together in the utmost harmony. It was feared the Cuban leader might decline to co-operate with the American forces unless Shafter formally recognized the Cuban republic, but Garcia made no such demand.

Nearly Ready to Attack.

Washington, June 29—Special—Gen. Shafter has now a force at his command greatly superior to that of the Spaniards in Santiago. The reinforcements brought by the Yale have been safely landed, and will join the main army today. The heavy artillery is being forwarded to Santiago along the slow and toilsome roads as expeditiously as possible. By sundown it will have arrived at the points where it will be posted. Gen. Kent now holds a position which commands Morro castle, and with aid from the guns can reduce the fortification in a few hours and occupy it if thought advisable. This will give Sampson a chance to operate freely in the bay against Cervera's fleet, as nearly all the other important fortifications have already been destroyed. The field artillery brought with the army commands the city of Santiago and the greater part of the bay. The heavy guns will be so placed as to bear directly upon the bay so as to assist Sampson in his attack upon the Spanish squadron, which will thus be placed between two fires, either of which will be sufficient to destroy it. The signal for the opening of the battle will be given as soon as the large guns arrive.

They Had Wire Cutters.

New York, June 29—Special—The Spaniards at Santiago find that they did not obstruct the highways about the city as effectually as they had supposed, although they strung barbed wire in every direction. Roosevelt's Rough Riders and many of the rural soldiers in other commands have been accustomed to surmounting such trifles, and went to Cuba well provided with wire cutters such as are used in the west. They find it an easy matter to remove the Spanish wires, thus enabling them to pass along the roads unimpeded. If nothing more serious than barb wire fences is found in the way the attack upon Santiago will not be long delayed.

Spies Captured.

Playa Del Este, June 29—Special—Five thousand Americans and a thousand Cubans are today occupying the hills of Micacos, the highest point on the road to Santiago. They report that the Spaniards are fortifying the hills three miles from the city. Cubans yesterday captured three Spanish spies. They found papers on them warning Linares of the Americans' preparations to attack Santiago. They also contained information that the Spaniards at Guantanamo are in dire straits.

Strongly Intrenched.

Baiguire, June 29—Special—News has been communicated to Shafter that the Spaniards are strongly intrenched at Santa Ursula and Laguna, both important entrances to Santiago. They have been supplied with guns from Cervera's ships. The force comprises six thousand men. Shafter has issued orders that the troops shall not engage the Spaniards unnecessarily.

In Good Condition.

Washington, June 29—Special—Gen. Shafter telegraphs that the troops are in excellent condition. There is very little sickness.

A PICNIC WITH VARIATIONS

How Footville Boys and Girls Enjoyed Themselves Under Difficulties.

Footville, Wis., June 23.—Editor Gazette.—Have you heard about our picnic from Footville? When I got back to the livery stable we were debating the question of going home or staying, when George Shaw and Will McNeill came in and said they would not go home with us, that they had enlisted. The news was a shock to all, and could be scarcely believed. After satisfying ourselves that what they said was true, the boys sung patriotic songs to the accompaniment of the girls' tears. When the rain abated a little the girls went around to the various houses where they had friends and staid all night while the boys staid in the hallway of Ryan's undertaking establishment next door to a corpse.

We wanted Shaw and McNeill to go out and sleep in the street in the rain as they would get used to the soldier life, but they thought they would sleep where it was dry for one more night even if it was on a hardwood floor. At four o'clock "revellie" was sounded and the boys tumbled up off the floor, got the horses hitched up, gathered up the girls of the party and started for Footville minus two of our party, who held it their duty to leave us and fight at the call of their country. The "good byes" were fearful from the girls and rather cloyed from the boys, but they were said, and Footville is proud of her

representatives of Co. A, First regiment.

A party of twenty-five young folks, mostly from Footville, went out to the dells of Emerald Grove, with a carry-all and four horse team, Friday. The outgoing trip was all very fine, but on the return the rain clouds began to gather ominously, and just as the foot of Main Street was reached the rain came down in torrents, and refuge was taken in Ryan's livery stable. As quickly as the team could get them there. All were more or less drenched, but cheerfulness prevailed as they filled to overflowing, the office of the livery stable. As soon as the rain abated they started on their trip to Footville. Those who made up the party were:

APPROACHING A SETTLEMENT.

Oshkosh Woodworkers' Strike Will Soon Reach a Termination.

Oshkosh, Wis., June 20.—The woodworkers' strike, one of the most important labor movements in the history of Wisconsin, is now in a fair way of immediate settlement. The manufacturers and the men have had a conference, at which the labor leaders eliminated the union convention and agreed the manufacturers should meet their own men as such, but insisted on a slight increase of pay and a weekly pay day. The last the manufacturers refused to accede to, but it is thought that an agreement will not be reached, as considerable pressure is being brought upon the manufacturers to give in.

At the factories the situation was practically unchanged yesterday though the mill men report a small gain in men. A half dozen rioters mostly women, have been arrested, but all gave bail. Besides the soldiers about 300 deputies are on duty and the direct cost of the strike, not counting the loss of wages and business is about \$1,500 a day.

Gov. Scofield is anxious that the strike be settled and that the troops be removed. A prominent saw and door man last evening said that the conference was wholly unofficial and that those present had no authority to make terms. However, there was a feeling of assurance that the matter will soon be brought to a close.

MADE A SUCCESS OF IT

Court House Flag Pole Was a Hard Thing to Handle

Eugene Fish feels like a Grand Army Post these days. He is in the flag raising business himself. When he got the contract to set a ninety-four foot steel pole on the roof of the Court house he might well have been a little doubtful. Such a pole is a mean thing to handle. He raised it without a mishap, however. A foundation of timber was built above the ceiling of the court room, the base of the pole was set in through the roof and four steel guy wires run out. The pole is now solid and unwavering and cannot go unless the cupola goes first.

Contractor Kaudson has the contract which will cost in the neighborhood of \$375 to complete. It has been twenty years since the last shingles were put on.

MONUMENT TO PATRIOTIC DEAD

MILWAUKEE UNVEILS STATUE TO HEROES OF WAR.

Erected Through the Efforts of Mrs. Lydia Ely—Many Thousands Participate in the Ceremony—Speeches By Distinguished Citizens and Officials.

Milwaukee, June 20.—Yesterday witnessed the unveiling of the monument in honor of the soldiers of the civil war, which has been located in the small park on Grand avenue near Eighth street. The project has had stages of progress and delay covering more than a score of years, but took tangible form half a dozen years ago, when Mrs. Lydia Ely, a lone woman, determined to carry it to a climax after brave men had given it up.

The grand square of 1,200 by 250 feet formed by the intersection of Grand avenue with Eighth street on the east and Eleventh street on the west, presented the appearance of a sea of faces, with eyes fixed on one spot, that of the monument which stood levelled in a large canvas. At the lowest estimate there were about 50,000 people in this sea. Around the flower plots in the center of the square there was barely room enough for the procession of veterans to pass and mounted policemen had to keep the narrow way clear.

Governor Scofield and staff, the speakers of the day, and directors of the carnival association, came in carriages, and took seats on the speaker's stand. The band played "The Star Spangled Banner," and General Winkler introduced Rev. Charles Stanley Lester, who, in a few remarks presented the monument on behalf of the monument committee to the city of Milwaukee, praising the untiring and heroic work of Mrs. Lydia Ely, to whom more than anybody else was due this grand occasion of presenting this everlasting gift to the people of the city of Milwaukee.

A grand view presented itself to those privileged to occupy seats on the speaker's stand. In front of it, to the west, was the huge monument, covered with canvas; west of this pile was a stand occupied by two ladies of the patriotic societies, the Daughters of the American Revolution, the Colonial Dames, the Woman's Relief corps, and on the left, south of the monument, were two large stands set inside for the old soldiers who came marching from the Soldiers' home, and the G. A. R. veterans who marched with their post.

There were from 6,000 to 7,000 men in the procession, which came up to the monument like a stream through the sea of faces on all sides.

Speeches of Acceptance.

Mayor Roe, in behalf of the city, accepted the monument in an eloquent speech. Governor Scofield, whose appearance was enthusiastically applauded by the Soldiers' home veterans, who filled the stands to the south of the monument, accepted in behalf of the people of the state in the center of the space that separated the speakers' stand from the monument stood the banner bearers of the veteran's of the old soldier's home and the G. A. R. posts of Milwaukee, with their tattered old flags waving below the monument pile. Then Mrs. Lydia Ely appeared in their midst, greeted by the cheers and applause of the thousands of the people, with John S. Conway, the sculptor, at her side. It was the grandest and happiest moment in the lady's life, while with trembling hands she pulled the canvas down and brought the monument to view. Hundreds of flags, thousands of hats, thousands of handkerchiefs, were waved, and thousands of voices joined in the applause. The result was a demonstration of the like of which was never witnessed in their city before. The band struck up a national air, in which the immense audience joined, and then came the climax. Joseph P. Quaries, Wisconsin's silver-tongued orator, stepped forward and delivered an address, accepting the monument in behalf of the veterans.

DESIGNS OF THE KAISER.

German Emperor Plans a Landing in Manila.

TONE OF SEMI-OFFICIAL NOTE.

Apparently Published to Prepare the World for the Spectacle of German Troops in the Philippines—Admiral Dewey's Significant Words.

London, June 29.—The Berlin correspondent of the Daily News says: "The following semi-official note has been published here, apparently with the object of preparing the world for the landing of German marines at Manila:

"As yet no statement has reached here about the landing of German marines at Manila, but it is a matter of course that Admiral von Diederichs will interfere as soon as it may become necessary for the protection of German interests there. Such a measure would have no political significance whatever. Neither at Washington nor at Madrid have negotiations occurred on this matter."

"The assurance that a landing of marines would have no political significance is very nice. The only question is whether the United States and other powers will share this opinion, or whether the other powers will see in the landing an act of interference, compelling them to follow suit."

Dewey's Warning to the Germans.

London, June 29.—A dispatch to the Daily Telegraph from Manila says:

"The report that Germany will not permit a bombardment is exciting deep irritation in the American fleet. Admiral Dewey intends to demand a capitulation of the instant reinforcements arrive. He told Prince Henry of Prussia that he would be glad to see the German officers at Manila, but it would be well to caution them to keep out of the American line of fire. It remains to be seen whether Germany has really given such promises as are pretended."

"Two attempts have been made on the life of Gen. Aguinaldo in order to secure the reward placed on his head by Capt. Gen. Augusti."

"The United States cruiser Boston has gone to Bolinao to establish there, so it is reported, a base of operations. Gen. Augusti has arranged a conference with the foreign admirals, presumably on the subject of protection for the lives of non-combatants."

"The situation is growing unbearable. The besieging force gives us no rest, and the work of the Spanish troops on the line of defense is terrible. They are fighting with the desperation of resignation. They have had no nourishing food for days and have been reduced to eating wild birds and shellfish. Still, with starvation staring them in the face, they hold their posts and fight with the courage of their race."

"The population is in a state of terror. The provincial garrisons have been starved into surrender. The belief, first entertained, that Germany would help Spain is growing fainter, and it is now feared that she will share in the partition of the Philippines. There are now seven German warships in the bay."

FOR AMERICAN SUPREMACY.

Gen. Merritt Will Explain Intentions of the United States.

San Francisco, June 29.—Gen. Merritt expects to take possession of the Philippines peacefully. Should resistance be offered, however, he will be fully prepared to use force, and plenty of it. He will discuss the matter with Dewey at Manila, and the two will act in concert in whatever move is made.

In order that the Filipinos may not misunderstand his motives and intentions, Gen. Merritt has prepared a proclamation, which is printed in Spanish. Thousands of copies will be posted in the islands, and there is no chance for anyone there to fail to grasp what is meant by the document.

The chief points are the announcement that the United States, represented by Gen. Merritt, has formed a provisional government in the islands; that his authority is supreme; that no oppression is intended; that liberty will be allowed every inhabitant so far as it can go without conflicting with law and order, and that, above all things, the freedom of the people is desired, the ultimate aim being their release from Spanish bondage.

Merritt's Army to Be 21,000 Men.

Washington, June 29.—The understanding at the war department is that the total number of regulars and volunteers which will be dispatched to Manila in command of Maj.-Gen. Merritt will approximate 21,000 men. Of these 10,000 already have left San Francisco in three separate expeditions. With the troops now at San Francisco and those on their way to that city the remainder of the eighth corps will be made up. The fourth expedition to the Philippines is scheduled to start between July 6 and 10. The fifth and probably the last of the expeditions may sail August 1, the expectation being that some of the transports used in the first expedition will have returned from Manila before that time and be ready to start again across the Pacific with American troops aboard.

The Commodore Sails to Santiago.

New York, June 29.—A cable to the Journal from Key West says: "Commodore Watson has sailed for Santiago on board the Newark to pick up the remainder of his command."

BANKRUPTCY BILL PASSED.
Measure Disposed Of in the House and Now Goes to the President.

Washington, June 29.—In the house Tuesday the conference report upon the bankruptcy bill was adopted by a vote of 131 to 53, and the measure will go now to the president.

Speeches in opposition to the reported bill were made by Messrs. Terry (dem., Ark.), De Armond (dem., Mo.), and McRae (dem., Ark.), and in support of the measure by Messrs. Henderson (rep., Iowa), Underwood (dem., Ala.) and Ray (rep., N. Y.).

Several bills affecting the army were passed, notably being those providing for the pay of volunteers from the date of enrollment for service, and providing for increases in the ordnance, engineer and quartermaster's departments.

Almost the entire session of the senate was occupied by Mr. Caffery (dem., La.) in a continuation of his speech against the annexation of Hawaii. The bill was read and the committee amendments, so far as they have been offered, were agreed to.

Many the remedy that makes the skeptic.

It fails to keep its promises. Doan's Kidney Pills bring renewed reward.

Our citizens say they cure backache, cure urinary disorders, cure sick kidneys, experience has taught them this is so.

Conviction for every sufferer. In the testimony of friends and neighbors.

Read this case:
Mr. A. F. Lee, of 51 Sharon St., carpenter, says:

"I can most strongly recommend Doan's Kidney Pills for kidney complaint. I took mine was contracted in the army where I served in Co. D, 2nd Wis. Inf. For the last twenty years it troubled me a great deal, many days I could hardly keep at my work, and by rights should have staid at home and doctored. It was seldom that my back did not ache, and I have been completely laid up for three or four days at a stretch. When stopping or lifting sharp twinges penetrated the kidneys, the secretions from these organs were too frequent, and accompanied by pain. I used all kinds of remedies but none gave permanent relief. Purchasing Doan's Kidney Pills at the Janesville Drug Co. I took them, and after the first three or four doses a noticeable change was brought about. I improved steadily from then on and on completing the treatment I was in good condition and am now well. I do not feel anything of the trouble now and consequently take pleasure in recommending the remedy which did so much for me."

THIS DAY IN HISTORY.

1847—Emanuel Marquis Grouchy, marshal of France under Napoleon, died; born 1760.
1852—Henry Clay, American statesman, died at Washington; born 1777. Clay was born in Virginia and emigrated to Kentucky after his admittance to the bar. He was then 29 years old. When Kentucky formed her state constitution, Clay advocated the gradual abolition of slavery. One of his greatest speeches in congress, where he served 18 years, favored the recognition of the South American republics.
1880—The steamer Savannah, carrying 300 passengers, burned off College Point, N. Y., with the loss of 50 lives.
1888—General Washington L. Elliott died in San Francisco; born 1821.
1890—Green Clay Smith, a Union veteran, died at Washington; born 1827. Ex-President Polk's of Brazil died near Rio Janeiro; born 1833. Daniel Cady Eaton, noted botanist of Yale, died in New Haven.

NO EXCUSE FOR BOLT

Oshkosh Northwestern—Party conventions are supposed to be sort of clearance houses of individual preferences in which means are afforded to secure an expression of the sentiments of the majority in regard to individuals who shall represent party principles. It is not understood that there is any division among the republicans in this state on principles. The principles enunciated by Mr. La Follette do not differ from those entertained by the great mass of republicans. Mr. La Follette only differs with other republicans in his choice of men and methods. There is no excuse for bolting a party's majority action when only differences of opinion exist as the incidental means of effecting a common purpose. There would be no excuse for a bolt on part of Mr. La Follette and his friends.

Tao Hudson Star and Times prints a kindly article concerning Gov. Scofield in which the statement is made that the governor is "much more than the average public servant. He is doing business on business principles, and in war matters he has conducted affairs in a way to rejoice the heart of every soldier boy at the front. It takes nearly two years to inform a governor upon the details of his office. The people of Wisconsin have found Governor Scofield an apt pupil and a level headed man. They have got him well equipped for service in his great office and will not now cast him aside for the mere sport of breaking in some fresh aspirant for public honors. Scofield is all right; push him along. He is the peer of all his critics in everything that is essential for a good executive."

Whitewater Register:—The death of Dr. S. Fillmore Bennett, the author of the immortal hymn, "The Sweet By and By," occurred at Richmond, Ill., last Saturday. The hymn was penned by Dr. Bennett while he was proprietor of a drug store at Elkhorn, in this county, and it was set to music by J. P. Webster, a composer of the same place. For a short time prior to the war, in which he enlisted, he was associate editor of The Elkhorn Independent. Curiously enough, while we find his celebrated hymn in every collection of sacred songs, the doctor was a member of no church and his religious tendencies were more of an atheistic nature.

Editor Libby, of the Evansville Enterprise, evidently believes in a "policy of expansion." He says, "We would be glad to publish the local news of all surrounding towns, and will deal liberally with anyone who will furnish them."

R. O. Jordeau has been appointed general inspector of the treasury department, at a salary of \$3,000 per year. The appointment is an excellent one, and Mr. Jordeau will be found a faithful and competent official.

The people of Honolulu raised \$400 to pay the postage on letters written by the American soldiers on their way to Manila, and no man wearing Uncle Sam's uniform was permitted to spend a cent in the city.

The Americans are a bustling race. Plans have already been made to send missionaries to the Philippines.

well treated, the British consul says. The Spaniards seem to realize the situation.

At last the Klondike has been heard from. Fifty prospectors have reached Seattle from Alaska, with hard luck stories and no gold.

General Blanco's typewriter is now kept busy writing announcements that such-and-such vessels have "succeeded in running the blockade."

The "Carnival edition" of the Milwaukee Evening Wisconsin was a triumph of the printer's art.

It would seem quite appropriate that the officers in the navy should wear white caps.

The Indianapolis Journal says that with Joseph Leiter, O. U. D. means "call on dad."

What will the Spaniards think when Watson's fleet appears off their coast?

Admiral Camara's battle cry is "Remember Montezuma and Cervera!"

The gold reserve still increases steadily.

NO FEAR FOR PORTO RICO.

Navy and War Departments Ridicule Spanish Plans.

Washington, June 20.—A report that Spain intends to send reinforcements to Porto Rico meets with ridicule at the navy and war departments. San Juan, the most important port and the only one well fortified in Porto Rico, is now blockaded by the auxiliary cruiser St. Paul. She has been blockading that port for some days without any assistance, and there is no fear on the part of her commander of any ships that Spain can send to Porto Rico. At the department it is not thought probable that Spain will attempt to send any more troops to Porto Rico, for the reason that their capture would be as certain as anything possibly could be in the future.

The transports will be ready soon for the Porto Rican expedition and it is regarded by the war and navy departments as an easier thing to take Porto Rico than to take the single city of Santiago. It will not be necessary to capture San Juan at the start in order to take Porto Rico, and it is intimated that troops will be landed elsewhere and the city attacked from land and sea. It is not protected from a sea attack, as is Santiago, and would be sure to fall within a few hours by a combined attack of the army and navy.

The Reason.

Tommy regarded Aunt Nell's bishop sleeves with a good deal of curiosity. Suddenly he turned to his mother and asked: "Is it why her sleeves are so large, mamma, that she may laugh in them?"—Judge.

May Promulgate a "Monroe Doctrine." Paris, June 20.—A Russian correspondent of the Figaro, referring to the uneasiness felt in St. Petersburg over the Spanish outlook, represents Russia as being pleased with the prospect of the United States taking the Philippines, while, the correspondent says, she will hardly, if at all, brook an American incursion into Spanish waters. The sending of a squadron to bombard Spanish coast cities might lead to the most serious consequences. The threat of sending a squadron to Spain has already resulted in an exchange of views by the powers. If it is repeated it may lead to a declaration analogous to the Monroe doctrine.

Unveil the Monument.

Milwaukee, June 20.—Tuesday's contribution to the big semi-centennial celebration was a monster military pageant attending the dedication and unveiling of the new soldiers' monument. The procession, which comprised thousands of veterans and the detachments of the state militia from Camp Douglas, started at noon and marched to the intersection of Tenth street and Grand avenue, where the monument stands. The unveiling ceremonies included short speeches from a number of prominent veterans and closed with an infantry and artillery salute.

Captured Spy Tells Tales.

Balquidri, Province of Santiago de Cuba, Monday, June 27, via Kingston, Jamaica, Tuesday, June 28.—A Spanish spy captured by the Cubans Sunday reports that the Spaniards in Santiago believe the Americans suffered heavy loss during the fighting near Sevilla Friday. The spy also reported that there was much criticism in Santiago on account of the fact that the American landing was not contested at Balquidri, and he also says there was talk of an American attempt to flank the Spanish troops. He says there is very little food in Santiago.

Illinois Patriotic Caught.

Topeka, Kan., June 20.—Noble Kent, wanted in Macoupin county, Illinois, where, March 28, 1897, it is alleged he tried to kill his father, has been arrested here. Leaving the old man for dead, Kent is said to have stolen \$1,000 and skipped. There is a reward of \$500 for the capture of Kent, half offered by the governor of Illinois and half by Sheriff Davenport of Macoupin county. Kent was identified to a certainty by the officers. He bears several scars which prove his identity. The Illinois authorities have been notified.

Japan Has Her Troubles.

Yokohama, June 20.—Okuma Kagakichi has been charged to form a new cabinet. It will be the first party cabinet in the history of Japan. The resignations of the Marquis Saigo Tsugumichi, the minister of marine, and Lieut.-Gen. Katsura, the minister of war, have not been accepted. They will probably resign their posts in deference to the

Strike Hanging On.
Oshkosh, Wis., June 20.—The woodworkers' strike still hangs on, although the three factories running claim an increase of thirty workmen today. After repeated consultations with the local authorities the governor has decided not to withdraw the troops until all danger is past, which, according to city officials, will not be until after July 1 at least. After that date the other factories will resume operations, and the strength or weakness of the strike will soon be discovered.

Vote in Berlin Re-Balloting.
Berlin, June 20.—The second balloting in the election of members of the reichstag resulted as follows: Conservatives, 19; imperialists, 10; center, 23; reform party, 5; national liberals, 39; radical union, 11; radical people's party, 20; German people's party, 8; Agrarians, 3; socialists, 24; poles, 1; Guelphs, 8; Independents, 8.

THE OUTING CLUB FORMED FOR ACTION

**FORTY-FIVE PERSONS FORM
THE MEMBERSHIP.**

First of a Series of Parties Was Given Last Evening—This Year's Club Has a Few New Members—Intention Is to Give Six Parties This Year.

The first of a series of parties to be given by the Outing club this summer, took place last evening at Crystal Springs park. The present intention is to give six parties. This year's club is composed of forty-five members, which is equal to an attendance of about a hundred participants at each event.

A Merry Party.

At 5 o'clock yesterday afternoon the first boat left her dock containing thirty couples, who on disembarking, lost no time in preparing a 6 o'clock dinner, which proved to be fully up to the standard. During the dinner hour Smith's orchestra furnished excellent music. At 8 o'clock the second boat arrived on the scene, bringing about a dozen couples. The orchestra then found their way to the spacious dance hall, and for three hours the fun lasted. The night was an ideal one for dancing, and the cool breeze that prevailed made it most delightful.

The club this year, with a few exceptions, is composed of about the same members that joined it two years ago. The parties given are informal, and for that reason are all the more enjoyable.

At 11:30 o'clock the participants were disembarking at the Fourth avenue docks, each and all well pleased with the first Outing event of the season.

Members of the club this year are:

Messrs and Mesdames—
W. G. Wheeler, Charles Page, W. H. Greenman, W. H. Palmer, J. B. Dearborn, A. E. Blingham, I. F. Wortsdyke, C. D. Bostwick, J. L. Bostwick, O. Sutherland, F. C. Cook, E. F. Carpenter, G. F. Kimball, A. H. Harrington, George Sale, R. J. Hart, N. F. Cowles, Frank Farnsworth, F. L. Clemons, W. S. Pilemon, J. C. Rexford, Fred Hanchett, M. G. Jeffris, A. P. Burnham, P. C. Burpee, S. H. Smith, C. P. McLean, J. S. Bowdoin, S. M. Smith, G. S. Parker, W. A. Jackson, D. W. Watt, Wilson Lane, H. G. Carter, M. O. Mount, E. P. Doty, C. C. Russell, H. H. McKinney, G. W. Piffle, Al. Schaller, J. O. Wilmarth, W. W. Watt, Fred Jeffris, F. C. Grant, Charles Dunn.

MESMERIST NOT CLAIRVOYANT

F. Tracy Brown is Not Clairvoyant, But Heals by Mesmerism

In regard to the bill of E. Tracy Brown in the J. D. Holmes case it should be said that Mr. Brown's treatments were not clairvoyant but mesmeric.

"I make no pretensions to clairvoyant power," he said today. "My work is done by means of magnetism. Only two men in Wisconsin heal in this way, and I am one of them. Neither of us practice clairvoyance in any sense, and Mesmer himself had nothing to do with clairvoyance."

LEFT A HORSE UNBURIED

A Farmer From Center Escapes Punishment By Making Amends

When the case of the state of Wisconsin vs John Harnack was called in the municipal court this afternoon the same was dismissed on motion of District Attorney Jackson.

The defendant, who is a well known farmer in the town of Center was charged with not properly burying a dead horse whose demise took place on his farm.

Mr. Harnack promised to give the horse a Christian burial and the case was dismissed.

CAME FROM ROCKFORD TO WED

Eugene C. Gough and Louise J. Quee Made Man and Wife

Eugene C. Gough and Louise J. Quee, both of Rockford, Ill., arrived in Janesville on the noon train, and at 2 o'clock this afternoon they were made man and wife by Rev. Robert O. Denison, of the Congregational church.

The bride is one of Rockford's most popular young ladies, while the happy groom is a Rockford boy who is at present employed in the bicycle factory at Belvidere.

A Gratifying Success.

The Columbia Fete was a gratifying success, financially, the net receipts having been \$154, of which the Ladies' Guild received \$77, and \$77 being the share of Miss Matthews, the manager. The Guild will meet soon and decide upon the amount to be devoted to the welfare of the boys of Company E.

Miss Matthews has been the guest of Mrs. E. S. Watson, the past two or three days, leaving today for Janesville where he will take charge of another fete to be given in that city about the 1st of July. The Free Press takes pleasure in commending her and her enterprise to the citizens of our neighboring city—Beloit Free Press, June 15.

TRAINS COLLIDE ON JACKSON STREET

**ENGINEER WEBBER ESCAPES
DEATH BY JUMPING.**

Accident Came Near Causing Serious Injury to the Crew—South Bound Train Crashes Into Freight About to Back Out—Engine Badly Wrecked.

A south bound gravel train crashed into the rear end of freight train No. 70, on the Chicago & Northwestern road at 12:10 o'clock this noon, at Jackson street crossing.

Engineer Harry Webber, who resides in this city, was on the gravel train, and only escaped serious injury by jumping.

The balance of the crew on both trains received a bad scare and shaking up but all luckily escaped injury.

Engine 613 of the gravel train, was badly demolished and will have to be sent to the West Chicago shops for repairs. The cab was completely torn away and was landed on the coal tender. Broken glass flew in all directions and the iron pipes about the boilers were badly twisted and broken.

The south bound gravel train has been running special of late, and was in charge of Conductor John P. Sugrue, of this city. Just as she reached the Jackson street crossing the noon freight train, No. 70, in charge of Conductor Knight, of Baraboo, attempted to look out on the main track. Just as the caboose neared the main track the crash came.

Superintendent Moulton was soon on the scene, and the work of clearing away the debris was soon accomplished. Who is to blame for the accident remains to be seen.

Earthquake Shocks in Italy.

Rome, June 29.—Two sharp earthquake shocks were felt Tuesday at Rieti, forty-two miles from here. The worst one lasted nine seconds and a number of buildings were damaged.

The Carbineer barracks were rendered uninhabitable and the whole population was panic stricken. At Castel Franco the earthquake shock injured a number of people and killed one child.

The shock was also felt around Aquila, capital of the province of that name, eighteen miles northeast of this city, and along the Antrorocco Valley. A number of houses collapsed, one person was killed, and a dozen were injured. Five peasants were killed and seven others were injured at Santa Rufina, near Aquila. A number of houses fell and several persons were killed by a shock which occurred at the village of Capo Vello.

...LATE NEWS BY TELEGRAPH...

CARRISON IS RE-ENFORCED.

Twenty Thousand Spanish Soldiers Reach Santiago.

DESPERATE FIGHT EXPECTED.

Skirmishes Between Insurgents and Spanish Troops Are Frequent—Starvation and Distress Said to Prevail in the City.

At the front on the Rio Guama, June 27 (via Fort Antonio, Jamaica, June 28).—It is announced on very high authority that almost 20,000 Spanish soldiers have arrived at Santiago de Cuba since the American advance began, and it is added that Gen. Pando may be able to effect a junction with Gen. Linares at Santiago de Cuba.

The American front has been advanced beyond the first crossing of the Rio Guama about a mile, and a tug lies three and a half miles from the Spanish intrenchments.

Gen. Lawton's brigade rests on the road to Santiago de Cuba. The Third brigade, under Gen. Chaffee, the Seventh, Twelfth and Seventeenth regiments, holds the trench, with his command lying across the road and river.

The First brigade, the Sixth, Twenty-second and Second Massachusetts, under Gen. Evan Clarke, lies on the left flank, slightly in the rear, and the Second brigade, the First, Fourth and Twenty-fifth, occupies the opposite on the right flank.

Gen. Wheeler, with the cavalry, is in the rear between Sevilla hills and the Rio Guama. A strong line of outposts is maintained ahead.

Gen. Chaffee's brigade, with 3,000 Cubans under Gen. Aguirre, and several hundred under Col. Gonzales, was skirmishing toward the city this morning. The Cubans had several slight skirmishes with the Spaniards stationed on the hills on the American right flank, and our auxiliaries occupied the blockhouses in that vicinity, which were evacuated before daybreak by the Spaniards. The latter retreated toward Santiago de Cuba. No fatalities are reported.

Gen. Lawton, Gen. Chaffee and Gen. Wheeler have thoroughly reconnoitered the Spanish position, and with the aid of information furnished by the Cubans, have very good maps of the roads and defenses of the city.

Much information has also been obtained from Spanish pacificos who have slipped out of the city and given themselves up in the hope of getting food. They report great starvation and distress in Santiago. They say the Spanish troops are on short rations and that all the supplies are being held for their use.

The sick in the hospitals—the pacificos say—are suffering from lack of food, and they also report that seventy-seven Spaniards were killed and eighty-nine were wounded as the result of the engagement on Friday last with Cos, Wood and Young's commands.

The most startling information obtained from the pacificos is that already announced, showing that since the advance began almost 20,000 Spanish soldiers have arrived at Santiago de Cuba. This statement is made on the authority of Gen. Lawton, and he is also of the opinion that Gen. Pando may be able to effect a junction with Gen. Linares at Santiago de Cuba.

There are two forts of considerable importance within the Spanish lines—Punta Blanca, at the southern end of the bay, and Santa Ursula, at the southeast corner. On the road to Caney, on the north, is another fort.

There are about 450 men in each of these fortifications, and stretching around the whole city are nine barbed-wire fences, fifty yards apart, while just inside these are lines of rifle pits. Outside, to the eastward, about two miles beyond the American outposts, is a line of intrenchments extending from the northern extremity of the city to Morro castle.

No aggressive move by the Americans is anticipated for several days. The road to the base of supplies must be greatly improved before the onward movement can be safely made. At present it taxes the quartermaster's department to the utmost to get provisions and ammunition. A train of ammunition has reached Gen. Chaffee's brigade, and a battery of galling guns and dynamite guns attached to the rough riders has been moved to Gen. Wheeler's camp.

OVERTURES MADE TO SPAIN.

Efforts of France and Austria to Secure Peace Are Fruitless.

London, June 29.—In regard to the interview which took place between Salisbury and the United States ambassador, Hay, on Saturday, it is now certain that the subject of the conference was a protest on the part of the United States government against Spain's using Jamaica as a base of supplies.

The question of the passage of Admiral Camara's fleet through the Suez canal and other matters connected therewith, such as coaling, will be left entirely in the hands of Lord Cromer, British diplomatic agent in Egypt.

There is the highest authority for the statement that France and Austria recently made unofficial overtures to Spain, urging her to open negotiations, but without result.

thing is now in preparation for the mobilization of the One Hundred and Sixty-first regiment of Indiana volunteers in this city, and they will probably be in camp at the state fair grounds by Thursday. The physical examinations began Tuesday, and two colored companies passed the examination, with the exception of a few members. The new regiment will occupy the quarters at Camp Mount formerly used by the troops now at Chickamauga and Tampa. The governor is besieged with men who are seeking appointments as captains or higher offices, but Gov. Mount has decided to appoint the officers from the ranks after a thorough inspection of the troops. The governor says that in one regiment at least politics will have no place.

Campbell's Men to Rendezvous. Springfield, Ill., June 29.—Col. James R. Campbell's regiment of volunteers has been ordered to rendezvous at Springfield, and the entire command will be at Camp Tanner by tonight. No orders have yet been issued to mobilize the colored regiment, and this is explained at the adjutant general's office on the ground that sufficient supplies are not at hand for both commands. It is intimated that the regiment is not yet fully prepared for muster and that some of the companies are short of their quota. The routing of the troops was in accordance with instructions from the war department, and was done by Lieut. Cole, the quartermaster in charge.

First Illinois to Go to Cuba. Tampa, Fla., June 29.—Gen. Copinger, commanding the Fourth army corps, announced that Gen. Kline's division, consisting of six regiments, would not move from Tampa in the next expedition. The regiments are the Third and Fifth Ohio, Thirty-second Michigan, Second Georgia, First Florida and Sixty-ninth New York. He intimated, however, that Gen. Snyder's division, all of which is now here, and which consists of the Second New York, Fifth Maryland, First District of Columbia, First Illinois, Third Tennessee and One Hundred and Fifty-seventh Indiana, would be the first to be sent to Cuba.

Names Lieut. Hobson's Reward. Washington, June 29.—Representative Hilborn (Cal.), a member of the house naval affairs committee, Tuesday introduced a joint resolution tendering the thanks of congress to Assistant Naval Constructor Richmond Pearson Hobson and the volunteer crew of the Merrimac, and authorizing Hobson's transfer from the construction corps to the line of the navy. It is in response to the recommendations made by President McKinley in his message to congress Monday. Simultaneously with this resolution Mr. Hilborn also introduced the senate joint resolution recognizing the gallantry of Frank H. Newcomb and Capt. Daniel M. Hodgson.

American Policy Commended. London, June 29.—The St. James Gazette, commenting upon the prospect of the American forces attacking the coast of Spain, says: "The reception of the new. Hence a change in public opinion, which, at the commencement of the war thought Europe should notify the United States that the war must be confined to American waters. It is now recognized that the Americans are fully entitled to make war in their own way, and they are indeed driven to retaliate upon Spain in this manner owing to the tactics which Spain has chosen to pursue."

Friendlier Tone in Russia. St. Petersburg, June 29.—In view of the continued improvement of the military position of the United States the newspapers here are changing their tone to friendship for America, and now speak with contemptuous pity of Spain, the reason being. It is alleged, the growing fear of a possible Anglo-American alliance. The Russian press, however, does not think such an alliance very probable, and predicts that the victory of the United States over Spain will lead the former into a colonial policy which will eventually result in conflict with Great Britain.

Need Foreign Engineers. London, June 29.—The Gibraltar correspondent of the Daily News says: "The Cadiz authorities are persuaded that Cadiz is the objective of the Americans, but neither their measures of defense nor the third squadron will be of use unless Spain can find British or German engineers. Admiral Camara at his present rate of progress cannot reach the Philippines before sixty days."

Miles May Not Go to Cuba. Washington, June 29.—If Maj. Gen. Miles goes to Santiago de Cuba it will not be for the purpose of conducting the campaign against that city, but to supervise the work of re-embarking such part of Gen. Shafter's army as may be used in the Porto Rican expedition. The understanding, however, is that Gen. Miles will not go to Santiago at all.

Attempt to Balk America. London, June 29.—The Paris correspondent of the Morning Post says: "I learn on the authority of Dr. Bontances that, with a view of preventing American intervention, Spain will bestow independence upon Porto Rico, subject to certain commercial advantages being reserved for the moth-

DEVASTATED BY SICKNESS.

Governor Wires Despairingly to Gen. Correa—Aguinaldo's Suggestion of Surrender Rejected by the Spanish Commander—Gen. Merritt's Plans.

London, June 29.—A dispatch from Madrid says:

"Gen. Correa, minister of war, has received the following dispatch from Capt. Gen. Augusti under date of Manila, June 23, via Hong Kong, June 27:

"The situation here is still of the same gravity. I am maintaining my blockhouse line, but the enemy is increasing in proportion as the provinces surrender. Torrential rains are inundating the trenches and increase the difficulties of defense and also increase our losses by sickness and render desertions of the native troops numerous."

"I reckon the strength of the enemy at 30,000 men with rifles and 100,000 armed with clubs. Aguinaldo's herald has suggested our surrender as a means of avoiding the sacrifice of victims to the violence of the natives. I refused to listen to the proposal and am determined to maintain the sovereignty and honor of the flag."

"I have at least 1,000 sick and 300 wounded, and the walled city is crowded with refugees from the rural districts, who fear the insurgents. These people greatly embarrass the defense of the city, and their presence would cause a heavier slaughter in case of a bombardment, of which, however, there is no fear at present."

SHAFTER NAMES VICTIMS.

Official List of Killed and Wounded in Battle of La Quinsla.

Washington, June 29.—Adj. Gen. Corbin has received from Maj. Gen. Shafter of the Cuban army of invasion a cablegram containing the official list of the Americans killed in the battle of La Quinsla. The list in no material respect differs from that given the day after the fight. Gen. Shafter's dispatch follows:

"Playa del Este, Balquid, Cuba, June 28.—Adjutant General United States Army, Washington, D. C.: The following is the list of the killed on the 24th instant:

THE HOUSEHOLD.

Concerning Children and the Decoration of the Home.

For children up to 3 years old some sort of bonnet should be adopted for out of door wear, to protect the head from the wind and sun. It is not advisable to let very little children wear a hat or cap perched upon the top of the head. Big director bonnets are picturesque and fashionable, and in summer time lawn and muslin sunbonnets are also worn.

Down and leather cushions, covered with plush, velvet, tapestry brocade or cretonne are used in profusion in the furnishing of a room, these loose pillows being easily shaken up and aired and being adaptable to any purpose of comfort. It is hardly possible to have too many, and

course. They are much trimmed with crosswise bands of tucks, lace insertion and narrow ruffles of lace, a ruffle usually finishing the wrists. Sleeves of street gowns are very long, having a frill of lace or mousseline de sole falling over the hand.

A picture is given of a reception gown for a middle aged woman. It has a princess body of violet satin, which forms a long train edged with cream lace. This opens over a plaited skirt of black chintz over black taffeta. A sash of black chintz with a double frill of cream lace crosses in front and shows a plastron of cream lace. The sleeves are of violet satin. Two jeweled buttons are placed at the waist in front. The toque of violet roses is trimmed with black feathers, a choux of orange velvet and a jeweled ornament.

they may be made at small expense, by buying cheap bed pillows at special sales, such as are often advertised, and turning in one and so on to make the pillows into square cushions. They may be covered with any odd bits of stuff in the house, as the main requisite is harmonious and effective coloring. Cretonne, silkoline, chintz, pieces of old china silk or sarah gowns or linings will all answer the purpose, not to mention denim and awning cloth. It is not necessary to put a ruffle around the edge. Ruffles have been done to death for pillows and are not particularly appropriate at any time.

Fresh air is a necessity to babies; not merely the fresh air of the daily outing, but a change of atmosphere in the nursery. While drafts are dangerous and should be avoided, the air which has become more or less vitiated by the breathing of the persons in the room should be allowed to escape and pure air to come in. While the windows are open the child may be kept out of the room and brought in again when they are closed. It is said by authorities in such matters that infants are often made fretful and wretched by lack of fresh air.

The sketch illustrates a child's hat of plaited straw in which are strands of yellow, turquoise, pale green and pink. The full crown is gathered in to the wide brim, which consists first of a plaiting of sky blue gauze, then a plaiting of turquoise gauze and above that a ruffle of white mousseline de sole embroidered with colored silk flowers. A big bow of plaid gauze ribbon, with a turquoise satin border, is placed in front.

NEW TRIMMINGS.

Various Ways of Decorating the Costumes of the Period.

Mousseline de sole, which, with similar sheer fabrics, has been enjoying so great a vogue of late, still holds a position in the fashionable van. It is now used as a decoration for costumes of ceremony and is sometimes of the same color as the gown, sometimes white or black.

Blouse bodices are undergoing continual modifications. They are much less full than they were, and none of the new ones is allowed to bag at the back, a vast im-

RECEPTION GOWN.

provement, for the blouse back has a most untidy appearance save for children and exceedingly young girls.

Sleeves are entirely transformed, the latest being entirely plain and closely outlining the arm or else shirred and ornamented at the top with an equiset, a slight drapery or a bow. The latter style is preferable to the perfectly plain sleeve for slender arms. Unlined sleeves for thin summer gowns cannot be very tight, of

ing introduced as collar and belt. An example of this is shown in a new model of a dinner costume in which black embroidered net is employed over a lining of old gold tulle. The collar and belt are of red velvet.

Light bodices for similar purposes are made of very thin materials—gauze, tulle, fancy silks—and are decorated in many original ways, the effort being made to obtain more unique effects. This is not easy when for so long a time trimming has been in vogue, and the brains of all modistes have been racked to invent new arrangements and combinations.

Blouses are much less full than they were and are usually close at the back, which gives them a much smarter appearance. A blouse back sagging over the belt always has a somewhat untidy appearance. An embroidery of metal, silk or spangles often defines a bolero shape on the bodice.

Whether sleeves are plain or gathered they are always tight and small almost to the very top. There they are given a slightly wider effect by means of a small puff, a little drapery or a more or less fanciful cap. No doubt this decoration also will soon disappear and the skin tight sleeve of past days will return, with no fold or wrinkle to mar its smoothness.

Today's illustration shows a new and pretty spring costume of thin mastic cloth. The skirt, which closes at the left side, has a deep facing of cloth of the same color covered with applique spots of brown velvet. This facing curves upward and follows the closing of the skirt at the side, becoming narrower. The bodice of plain cloth has a fitted back and a crossed blouse front. The wide collar and soft revers are of the spotted cloth, as are the close sleeves. The plastron and belt are of plain mastic cloth, the high collar of brown velvet. The hat accompanying this gown is of manilla straw and is trimmed with draperies of cream silk gauze and with yellow and brown velvet flowers.

Five reasons why many of our first families go out of their way to buy here:

Do you know that many of our customers are the wealthiest and most particular people in this town? They are people who have tried other stores—large ones, maybe—but were never fully satisfied until they came here.

FIRST—because we sell "guaranteed groceries—groceries guaranteed to be best in every way. No auction groceries; no seconds.

SECOND—because we give you your money back the minute you want it—the minute our goods fail to please.

Naval Portfolios Free!

We have made arrangements whereby we are able to offer a splendid set of portfolios of our Navy, each containing 16 to 25 beautiful half tone naval views, 12x14 inches, printed on heavy art paper.

One of These Portfolios Will Be Given

:: FREE, WITH EVERY 25 CENTS' WORTH OF ::

"CUBA LIBRE" SOAP.

This Soap is one of the Allen B. Wrisley Co.'s best makes and sells 7 bars for 25c. At this price, without the portfolio, it is a bargain. The Naval Portfolios which are free with every 25c worth of "CUBA LIBRE" Soap are totally different from any others at present on the market. They do not contain old second-hand photographs of scenes in Hawaii or Cuba; but are confined entirely to appropriate pictures of our different cruisers, battleships, gunboats, etc., with full descriptions of all their important features, giving their cost, equipment, date of commission, number and size of guns, number of officers and men carried, etc. They also contain views with descriptions of the best Spanish boats. The present war has developed an unusual interest in our Navy--the best in the world--and it being so largely a naval war, these portfolios will do much to follow war news intelligently. The entire set will make a splendid acquisition to any library. Each portfolio is worth 25c to buy, but we give you one free with each 25c purchase of "CUBA LIBRE" Soap. Every man, woman and child is interested in Sampson's, Schley's and Dewey's magnificent war ships. With these portfolios the action of each ship can be more fully appreciated. First come, first served. We can't tell how long they will last, so don't delay securing them. One folio with each 7 bars or 25c worth of "CUBA LIBRE" Soap.
